The Big Block Advantage!

Faster

With our Five Decker Block you can install 40 sq ft. of wall in seconds!!

Stronger

These massive blocks are made of solid concrete and have the strength to hold back most any type of soil.

Easy to Install

No more back breaking work. Use your skid steer or backhoe!!

Cost Effective

Our system requires less excavation & backfill which means more money in your pocket.

Straight or Curved Walls

With our unique block design you can make a curved wall with up to an 18 foot radius or a straight wall with the same block.

Corner Walls

Allows for a 90 degree corner.

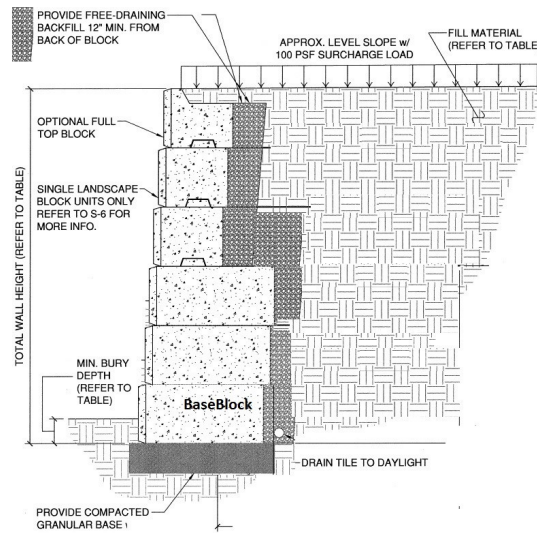

Top Cap Blocks

These blocks allow you to cover most of the top of the block with soil and provides a small concrete boarder.

Typical Installation

Taller Wall Installation

Less Excavation than geogrid using base blocks!

Full Block
 Width = 4 ft Weight = 2200#
 Height = 2ft Sq ft of wall area = 8
 Depth = 2.3ft Price = \$130
